STAFF REPORT

Meeting Date: July 8, 2020
To: City Council BHUSD JPA Liaisons
From: Pam Shinault, Assistant Community Services Director
Subject: Final Review of Draft of JPA Agreement between the City of Beverly Hills and the Beverly Hills Unified School District for the Provision, Use and Maintenance of Educational, Recreational and Community Facilities and Programs for the Fiscal Year 20/21 through FY 22/23.

Attachments: 1. Draft Joint Powers Agreement

The Staff Working Group will update the Council BHUSD JPA Liaisons on the items below:

- A. Highlights of Staff Working Group Negotiations
- B. COVID 19 Impacts on School Access, City Program Use and City Revenues During Closures and Reopening of Schools
- C. Draft JPA Document Review
- D. Consideration of Recommendation of Staff Working Group

Negotiations among the members of the Staff Working Group have been productive and collaborative throughout the negotiations process, which began back in January and went on hiatus when the Safer at Home order was put into effect in mid-March, until May when discussions began again but virtually. Periodic check-in has occurred with the Council/School District BHUSD Liaison Committee gathering sharing discussion points and securing feedback.

The focus of the Staff Working Group's discussions has been on describing each organizations roles and responsibilities more clearly, identifying specific times as priority JPA use times, and identifying a process for communication, use requests, and maintenance and repair problems and needs. Agreement has been reached at the staff level for level of security, the role of security during JPA and drop-in community use of schools, and processes for communicating when preventive maintenance activities can occur. In addition, janitorial expectations along with sanitation for prevention of infectious diseases, is described and supported in the new draft of the JPA agreement.

Meeting Date: July 8, 2020

The draft agreement recommended by the Staff Working Group is before you today and going to the full City Council on July 14th. The draft JPA agreement incorporates the annual payment details, with the understanding that in year two or three of the JPA term, either organization may request reentering discussions regarding the level of payment to the District, whether it be for an increase or a decrease in compensation, depending on the economic situation.

With the closure of schools back in March, the City JPA programs and community sports use has ceased on school sites, and has not returned. The entire spring session was cancelled and resulted in a \$300,000 loss in JPA program revenue to the City from lack of access to the schools for Preschool, Adventure Camp, Aquatics and enrichment programs afterschool . Additionally, with our biggest season occurring during the summer with over 25 camps on school property, plus aquatics, and sports leagues, our largest program revenues will not occur. The Community Services Department overall is projecting a 90 – 95% drop in revenue in July, 80% drop in August and a 70% drop in September.

Reopening schools and what that may mean for JPA access to schools has been a topic for discussion in recent weeks. As BHUSD considers how to reopen the schools by mid-August, they created a Return to Learn Think Tank Committee made up of medical experts, mental health professionals, key school staff members, attorneys and more, including City representation. The focus of the group is to assist the District with navigating and creating the safest way possible to return to schools. Given the potential complexity of this endeavor, recent spikes in cases of COVID have caused much discussion about how this may occur. The group is meeting weekly and will continue to evaluate the latest public health directives and guidelines.

Additionally, the City is evaluating how to return to the schools under the new public health guidelines for child care, camps and more, when the time comes. To limit mixing of cohorts and dedicate program staff exclusively to a cohort could prove challenging in an afterschool environment. Unless there is lots of space and the number of staff needed to meet the higher teacher student ratios, avoiding mixing 3rd graders with 2nd graders in Adventure Camp may be difficult.

Initially, to support the school's hybrid model of learning, where half the kids are at home one week, while the other half are on campus, then they switch, it is possible that the City may only be able to offer Preschool and Adult sports programming in order to avoid mixing cohorts in the afterschool setting. Much more discussion is anticipated as each organization navigates new waters during COVID. Many City programs may need to remain virtual as City and schools reopen facilities slowly or delay reopening them as spikes in COVID-19 occur. Virtual, online programming may continue to meet some of the community's health, social, emotional and other needs, and can continue to support the safer at home order.

Staff representatives from departments with items contained in the JPA agreement will be available at the meeting to answer any questions Council Liaisons may have. The Staff Working Group is recommending approval of the new 3-Year JPA agreement.

The City may elect, in its sole discretion, to prepay one or more of the required quarterly payments. Such notice shall describe the current financial limitations affecting the District.

B. Crossing Guard Payments. The City shall make payment to the District for the sole and exclusive purpose of funding crossing guard services at each of the three elementary schools and at the one middle school. To ensure readiness of the system, and to ensure proper operations and training on the system by police personnel, non-emergency, administrative user log-ins to the VMS will be required. Provided however, that access to the system for routine maintenance services shall be done during a mutually agreed upon established maintenance window (e.g. Mondays 6:00 AM to 6:30 AM).

- E. The City shall provide third party Milestone-certified VMS administration, systems administration, and other general maintenance services related to the cameras and camera system. The City shall not store or otherwise retain any video camera footage from the CCTV camera feeds.
- F. Once the initial VMS is established, the City shall increase system capacities up to the 550 camera mark based on overall system demand as determined by the City's best practices for VMS. The District and the City's staff shall make all necessary network, firewall, and other security schema changes as specified by the City needed to establish and maintain the system. For resiliency and continuity purposes, the City may elect to establish the system within a secure, District-dedicated private cloud environment.

City Access in Emergency Situations

- A. In connection with an emergency and when necessary to protect the health or safety of a pupil or other persons, the District shall allow the City's police personnel to access the District's CCTV camera feeds pursuant to 20 USC Section 1232g(b)(1)(I) and California Education Code Section 49076(a)(2)(A). Except as provided herein, the City shall not access the District CCTV camera feeds without the express written consent of the District. The City shall not download, or otherwise store any video content from the camera feeds unless otherwise authorized in writing. The Parties shall work together to ensure any image or information obtained through the cameras provided herein comply with all applicable regulations regarding confidential student records.
- B. The District shall provide at least five mutually-agreed upon generic external user log-ins to the Milestone Video Management System to police personnel for use in emergency situations.
- C. The City's log-in(s) to the Milestone Video Management System shall be recorded by the District. Such log-in(s) constitute the District's release of the video camera records to the City. The District agrees that release in such emergency situations is necessary to protect the health or safety of students and other individuals at the respective school site.
- D. The District's release of the video camera feed to the City is for the express purpose of addressing real time emergency situations. Except as otherwise authorized in writing, the City shall not use the video camera feed(s) for any purposes other than for addressing such real time emergency situations.
- E. Except as otherwise required by law or authorized in writing by the District, or for routine administration and maintenance purposes, the City shall not permit any party to access the camera feed.

- F. In the event that viewing the camera feed results in the receipt of a student's personally identifiable information, the City shall not disclose such information from the camera feed to any other third party without the prior consent of the parent or eligible student unless otherwise permitted by 34 C.F.R. § 99.33(b) or required by law.

- G. Upon request and provided that such information is in its possession, the City shall provide the District with information regarding person(s) who viewed the camera feed and the interest the person(s) had in accessing the camera feed.

The services provided by the SLOs shall be limited to school campuses in need of an SLO presence, as mutually determined by the City and the District. - D. SLOS shall be stationed in and around the assigned schools, provided however, that such services shall be performed under the supervision and control of the Beverly Hills Chief of Police ("Chief of Police").

 - 2. The City shall use its best efforts to ensure that the same person provides Services to the same campus except when he/she is on paid leave or otherwise absent. Subject to provisions of relevant City personnel policies or labor agreements, the City shall use its best efforts to schedule SLOs so that at least one SLO is on duty each day that school is in session. However, SLOs shall be available for emergency calls off of the campuses as determined by the Chief of Police.
- E. The duties of the SLOs will primarily include, but will not be limited to:

 - 2. Establish and maintain a liaison between District and BHPD staff, and elements of the juvenile justice system.
 - 3. Serve as a resource to District staff including administrators, faculty, and security personnel as well as students and their guardian(s) on all law enforcement-related issues including crime prevention and investigations.

Such notice shall be provided no less than 30 days prior to the scheduled date of the event. In such cases, the Chief of Police may agree to provide the requested services pursuant to a separate written agreement that will establish the specific terms and conditions of the additional service, including the specific payment and personnel involved. The District shall pay to the City all costs that the City incurs in providing the additional requested services in excess of the amount authorized in Section 6.1 of this Agreement. The District understands that the City is generally required to pay SLOS at least one and one-half (1 1/2) times their regular rate of pay for overtime.
